## **Veterinary Attestation Requirement from 13<sup>th</sup> December 2023**

As of **13th December 2023**, all producers selling livestock for slaughter will be required to have had an annual on-farm veterinary visit to allow their animals, and/or part of any animal (meat, hide, offal, etc) to be exported out of the UK. Veterinary Attestation will certify that an annual on-farm visit has taken place. It is particularly worth noting that the vet visit can form part of other routine or periodic visits to the farm and by planning ahead, farmers may be able to save fees on dedicated on farm veterinary visits. If vendors are members of a qualifying assurance scheme, such as Red Tractor, a VAN number is not required.

**Please see below a shortened summary of the key information from the Livestock Auctioneers Association website: -**

### **Veterinary Attestation Number**

The vet will provide the producer with a unique **V**eterinary **A**ttestation **N**umber (**VAN**).

### **Selling through Livestock Markets**

The vendor will provide the auctioneers with their VAN prior to, or on arrival at the market. For **cattle** this should be provided to the market on the market entry form. For **sheep** vendors may include the VAN number within the FCI declaration of the current official sheep movement form. Eventually this will be included separately on an updated official sheep movement form.

Following sale, the relevant VAN/Farm Assurance number for each lot will be provided to the purchaser on their sales invoice which can then be provided to the abattoir Vet, if/when requested.

### **Does membership of an assurance scheme automatically qualify?**

Farms that are part of qualifying assurance schemes do not need to complete the veterinary declaration. The qualifying schemes include **Red Tractor**, FAWL, WLBP, QMS, AHWP.

### **Is a VAN number required for all livestock?**

No. A VAN is only required for livestock sold for slaughter, from the consigning holding.

### **Is there a minimum residency period for the last holding?**

The requirement for a VAN number is applicable only to the last holding of residence, regardless of the length of time livestock have spent on the last holding.

### **What if a vendor does not have a VAN or assurance scheme membership after 13/12/23?**

Without evidence that a farm receives regular veterinary visits, the Official Veterinarian at the slaughterhouse may not be able to sign a Support Health Attestation (SHA) facilitating products derived from your animals to be exported to the EU. Any farmers unable to provide a Veterinary Attestation or membership of a qualifying assurance scheme will be identified as such and announced at point of sale.

### **What do producers need to do to prepare for the changes before 13/12/23?**

Livestock producers that are not registered with a qualifying assurance scheme should arrange a veterinary visit on farm for completion of the Veterinary Attestation Certificate. This visit can coincide with any other routine on-farm veterinary visit. In some cases, vets may be able to provide a retrospective VAN Certificate if a recent on-farm visit has taken place that complies with the requirements of the Veterinary Attestation.
