## Vet Attestation - Requirement for livestock entering the food chain which may be exported to the European Union (EU)

To Livestock Producers,

If you are not part of a qualifying assurance scheme and have not yet received a vet visit and Vet Attestation Number (VAN), very shortly your business will be impacted if your livestock or any part of animal products derived from your livestock enters the food chain and may be exported to the EU.

Exports to the European Union (EU) will be stopped for livestock, livestock products and some 5th quarter products, from livestock farmers who do not provide a Vet Attestation Number (VAN) or show that they are part of a qualifying farm assurance scheme.

**ACT NOW.** If you do nothing and do not have a VAN, it may limit the value and demand for your livestock.

If you are not part of a qualifying assurance scheme and have not already received a vet visit and VAN, you should follow the steps below, or you may limit the value and demand for your livestock at a market or abattoir in the near future.

**Speak to your vet to either;**

- a) **request a backdated vet attestation and VAN** from a farm visit in the last 12 months, or
- b) **arrange a visit from your vet** to provide you with a Vet Attestation and VAN. The visit does not have to have been specifically to provide a VAN – it can be provided during vet visits carried out for other purposes, as long as the criteria at question 10 in the Defra Q&A are covered which can be found at <https://ahdb.org.uk/exports>.

**Familiarise yourself with changes** that have been made to forms, systems and processes and include your VAN. This includes updated **LIS-Movement forms** (Sheep, Goats and Deer), and new functionalities within the **LIS** (Sheep, England), **eAML2** (Pig, England & Wales) and **Scot EID** (cattle, sheep and pigs, Scotland) digital movement systems.

**Ask your livestock markets and/or abattoir** where and how you can provide your VAN to them.

**Read the Vet Attestation information here** - <https://ahdb.org.uk/exports>  
**DO NOT DO NOTHING.**

If you do not act on this, your animal products will, very shortly, not be able to be exported to the EU.

**\*\*During the implementation period, farmer self-declarations are still being accepted. However, the implementation period will end on the 12<sup>th</sup> of April 2024 and from 13<sup>th</sup> April 2024, if there is no VAN or other evidence that a farm visit has been carried out (Farm Assurance), animal carcasses, or parts of the animal carcass, will not be eligible for export to the EU\*\***

### ARLA MILK PRODUCERS

All Calves sold through Truro Market are sold without the restriction preventing Purchasers from slaughtering low value calves for veal meat.

If you require that your calves are sold with a restriction preventing their slaughter within 8 weeks of birth, it is imperative that you or your agent notifies our staff at the point of unloading and it is clearly stated on the entry form.

We will then announce this information for the attention of the Buyers at the point of sale and we will require Buyers to sign a Declaration confirming their compliance. Lodge & Thomas will not be liable for any consequential action following any breaches of the Buyers' Declarations.

## **Wednesday 20th March**

### **At approx 12:30 pm following the sale of store cattle:**

Complete dispersal sale of an organic suckler herd of Stabiliser x, Lowline Angus x & Friesian x cows and followers. On behalf of Mr B. Mead from Ponsanooth.

Comprising: - **25** x in-calf cows due April onwards to the Stabiliser x bull, ranging from 3-11 year old, **14** x in-calf heifers due April onwards to the Stabiliser x bull, **8** x Autumn-calved cows & heifers with their Stabiliser x calves at foot, **2** x cows with their 3 week old Stabiliser x calves at foot, **18** x Stabiliser x heifers, 10-12 month old, **9** x Stabiliser x steers & heifers, 4-6 month old

All from a long established organic, 100% grass-fed herd. These are hardy, fertile, outwintered cattle that thrive on a fully grass-fed diet year-round. Zero inputs of silage, concentrates and minerals. Crossbred with Stabiliser and Lowline Angus genetics for low-cost great tasting beef. Paddock grazed, electric fence trained, ideal for regenerative projects

## **Wednesday 27th March**

**75** x British Blue x & Limousin x  
Young stores & Stirks  
***All from one farm***
