The Land

The land is accessed via unadopted shared tracks from the A30, over which the current owners have had the benefit of vehicular rights of way for many years. Both are shown in yellow on the land plan.

Available as a whole or in two Lots, consideration would be given to the splitting of the fields; in which case the most northerly field (of approximately 5.07 acres) would benefit from a vehicular right of way over the most southerly field (of approximately 3.64 acres).

The land is designated as being in an 'Area of Outstanding Natural Beauty' and is subject to an Article 4 Direction Order, meaning its use is limited to grazing, horticulture, conservation, amenity use etc and permitted development rights would be restricted.

Services: None. A right exists for mains water to be sub-metered from the meter indicated "W" on the plan (approximate location) and for a pipe to be laid from here into the land offered for sale. None of these services have been tested and therefore no guarantees can be given.

Wayleaves, Easements & Rights of Way: The sale will be subject to and with the benefit of all wayleaves, easements and rights of way as may exist.

Particulars & Plan: Whilst every care is taken in the preparation of these particulars, their accuracy is not guaranteed and they do not constitute any part of an offer or contract. Any intending purchaser/s must satisfy themselves by inspection or otherwise as to the correctness of these particulars.
